

Enhancing the inquiry based mathematics education

Petar Kenderov
Evgenia Sendova

A warming-up question:

Which is the most important
application of science?

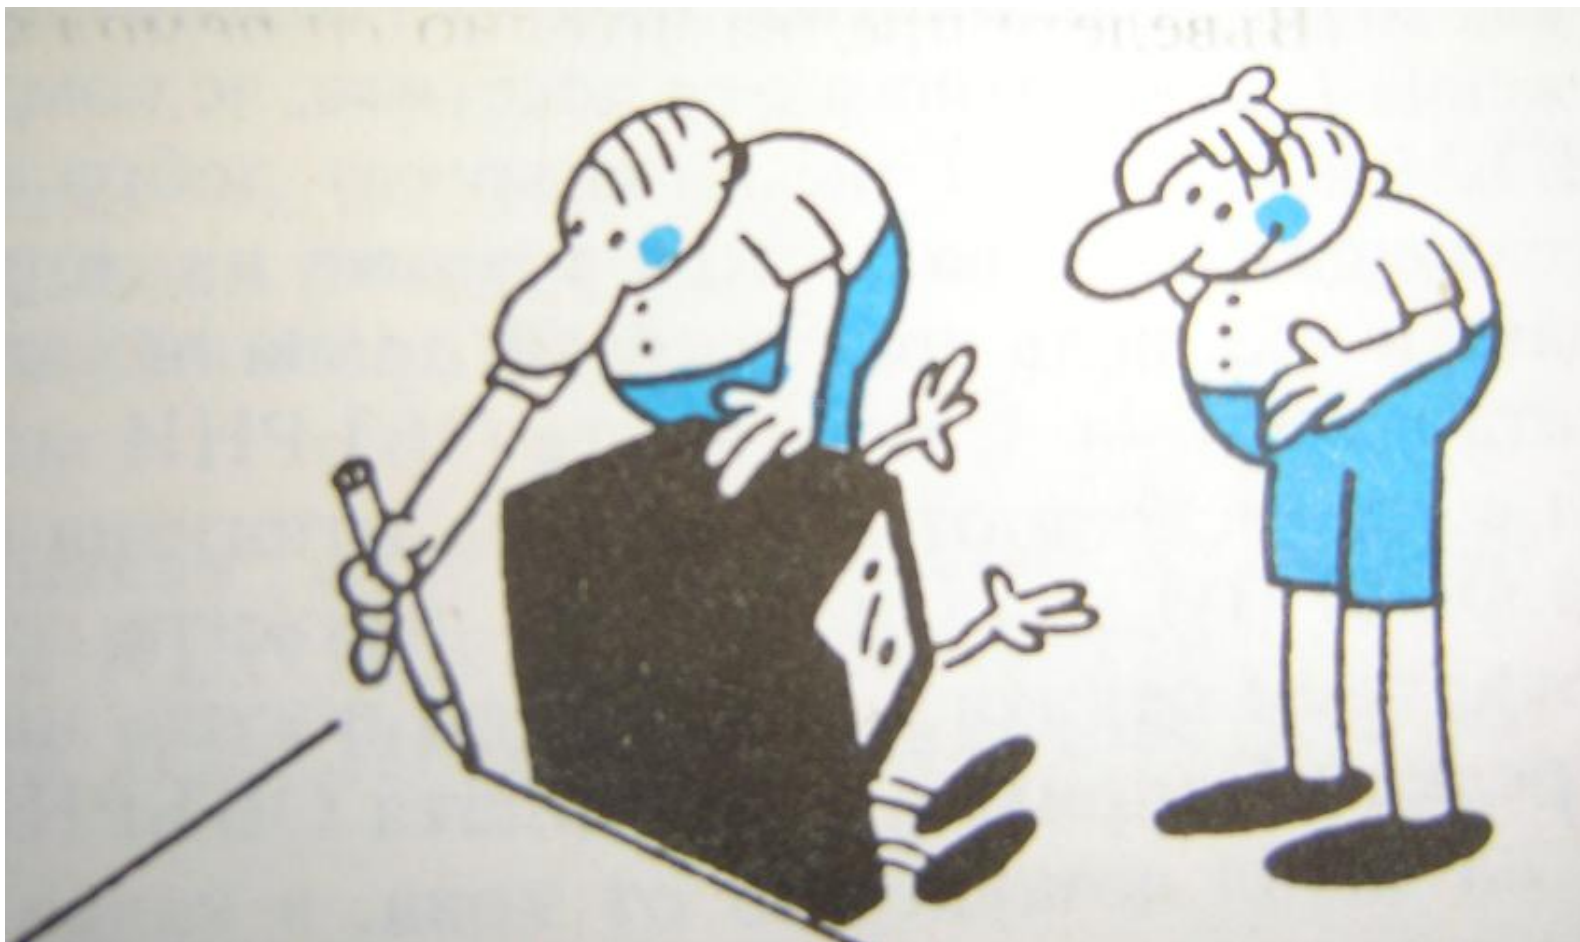

Pre-computer era

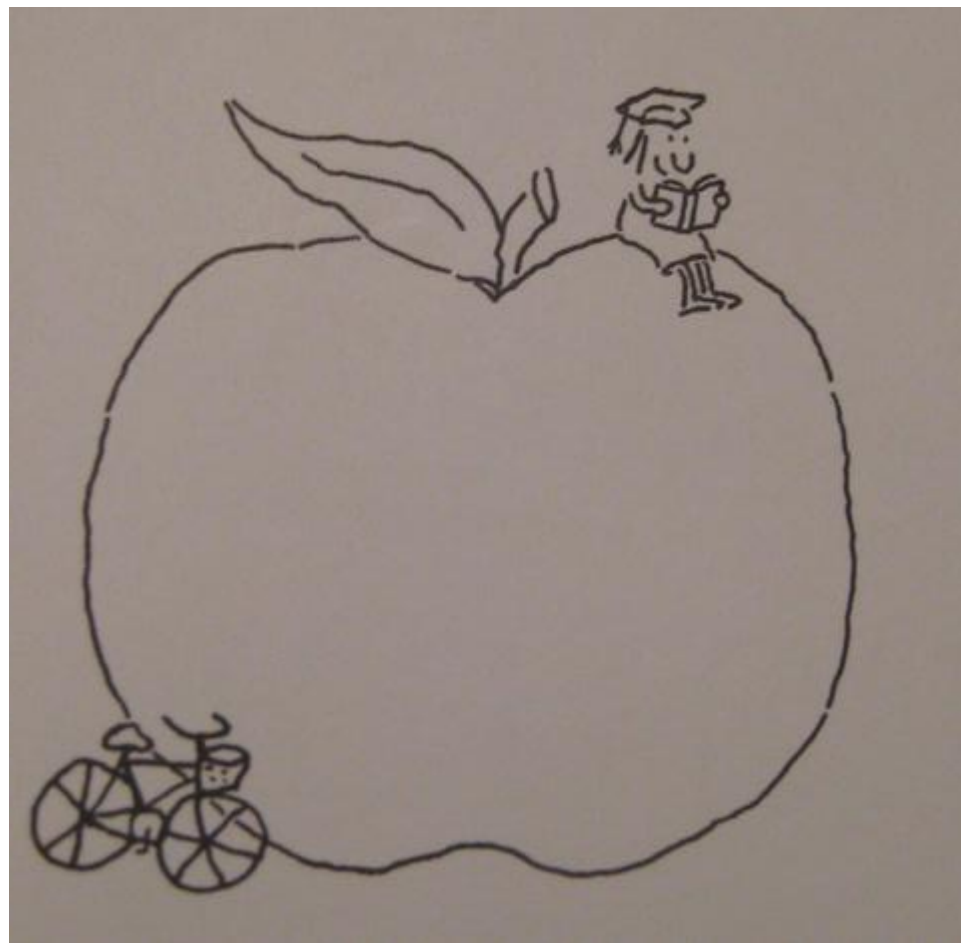

- Draw a triangle...

Post-pre-computer era...

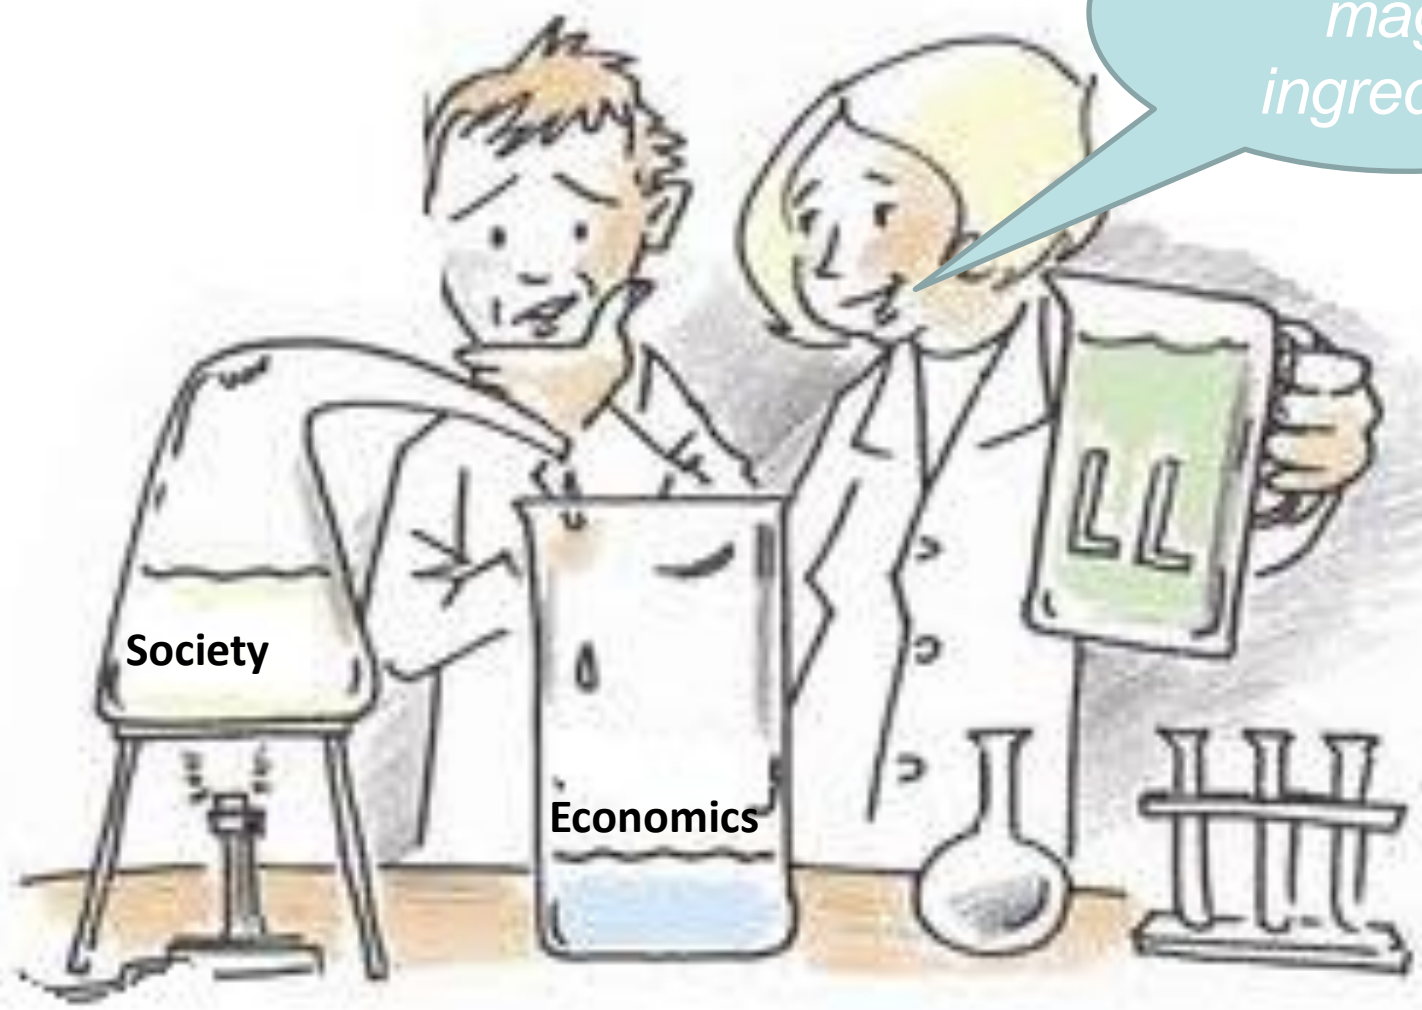

Life Long Learning and the related problems

*Let's add the
magic
ingredient!*

Society

Economics

The solution – inquiry based education not only in science

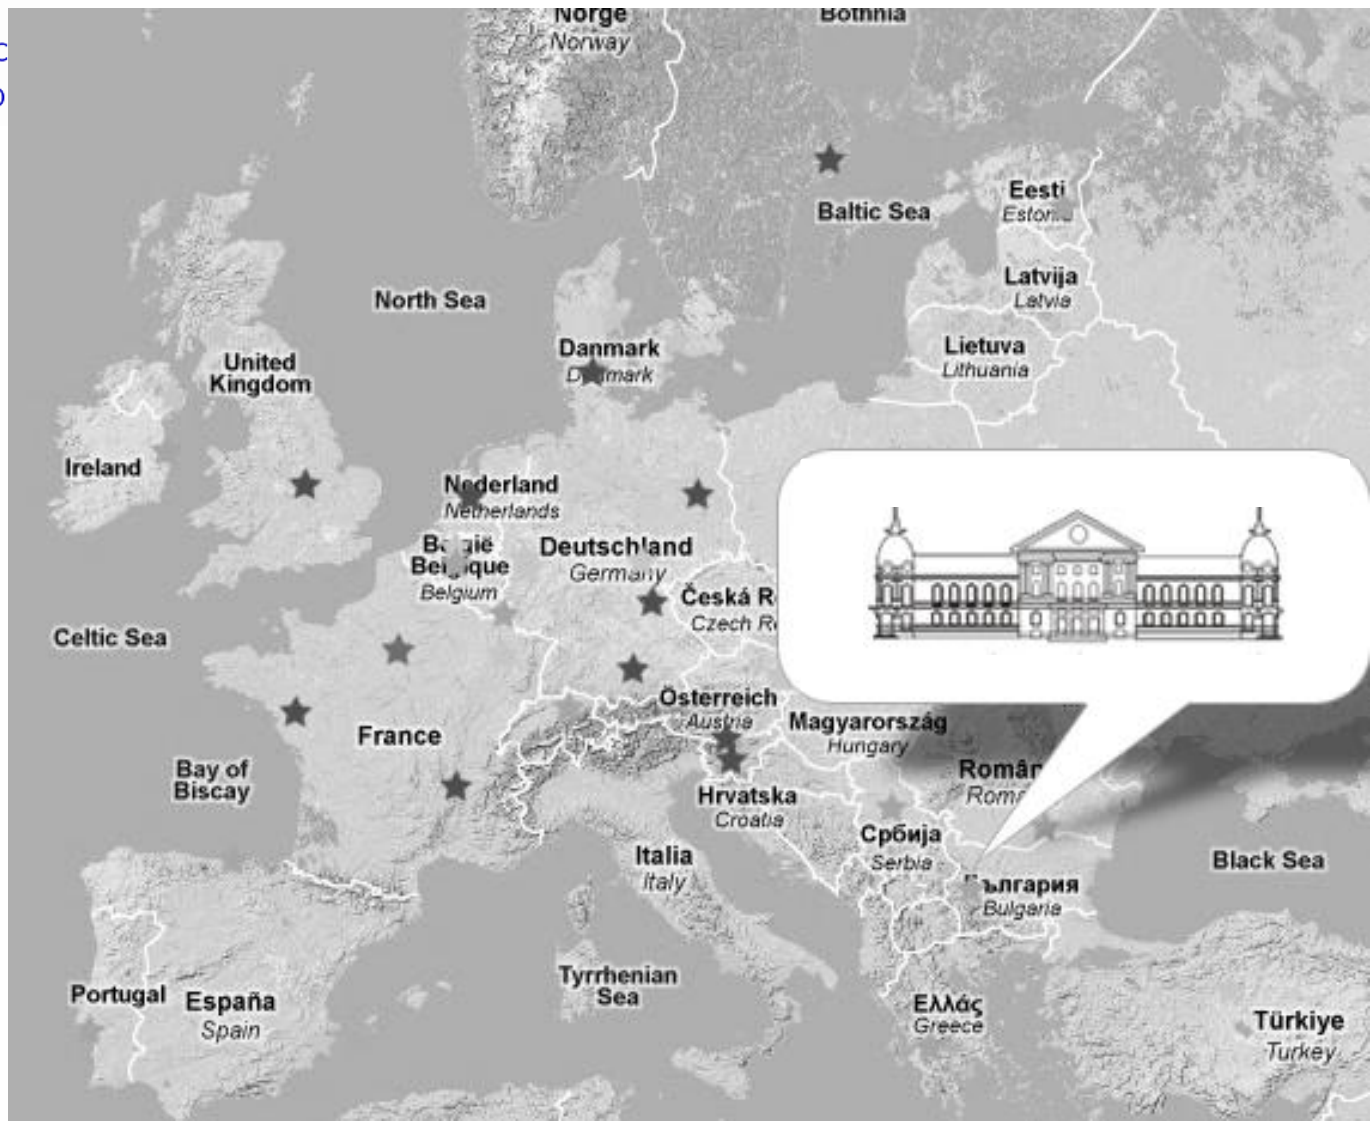

Fbonacci-project activities in Bulgaria

DISSEMINATING INQUIRY-BASED SCIENCE
AND MATHEMATICS EDUCATION IN EUROPE

The focus

The new role of the teachers

In the role of students

Enjoying the challenges

Looking for intellectual pleasure

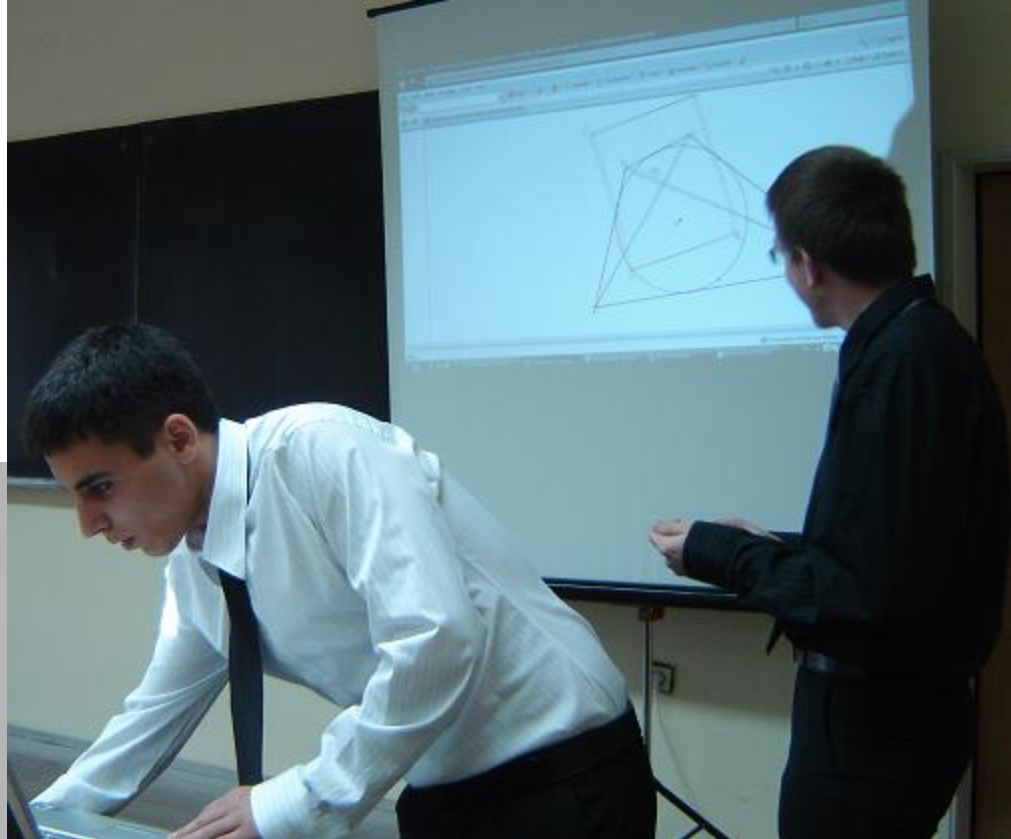

Expressing themselves

The students

The real goal of math education
